Ce texte est constitué de dialogues. Les interlocuteurs sont, à chaque changement, identifiés. Il arrive que la prise de parole se fasse à l'intérieur d'un vers : on a, dans ce cas, un tiret dans le vers et une double indication de locuteur (ex. MACRON - LEPIDA), le premier nom désignant celui qui laisse la parole, le second celui qui la prend.

Il n'est pas exclu que cette forme hellénisante de 'Ariadnam' soit une ruse métrique : cette forme en '-n' final peut, légitimement en latin, ne pas s'élider devant voyelle et, d'autres fois, être considérée comme l'équivalent de 'Ariadnam', et donc s'élider (cf. infra vers 83, 98, etc).
